Engineered to Perform, Built to Last.

You'll find AG Neovo displays performing reliably in places where

few would dare use a monitor. That's because unlike conventional desktop monitors, AG Neovo displays are created to meet the needs of demanding public and professional environments. Combining advanced technologies, innovative feature sets and a distinctive design, AG Neovo is changing how the world views displays.

Security & Surveillance

Security and surveillance operations around the world need equipment that matches the complex requirements of modern security systems, as well as stand up to the rigours of operating 24 hours a day, 7 days a week while preventing image burn-in. That is why AG Neovo provides the most comprehensive range of displays that are designed to deliver the flexibility and durability suitable for even the most stringent security environments.

Digital Signage

With more than 20 years of experience in display and video signal control solutions, AG Neovo provides digital signage solutions that are designed for 24/7 operation in all public environments. These solutions deliver a superior viewing experience and a high-level of protection with a wide variety of possible configurations perfect for retail, education, hospitality, transportation, corporations and healthcare institutions.

Professional Desktop / IT

AG Neovo offers a variety of display types, from everyday office use models with ergonomic stands and multitasking features to professional medical-grade displays that are compliant with multiple standards and safety certifications to ensure their reliable performance. Attractive, durable and versatile, AG Neovo professional desktop and IT displays are designed to meet the demands of unique environments.

Video Wall

Using multiple panels working in tandem, video walls offer businesses the ability to make an immediate impact in public spaces by creating eyecatching experiences that draw the viewer's attention at first glance. At the same time, they also give businesses the opportunity to optimise their creativity and messaging by delivering enhanced visuals beyond that which is available with single-display signage. Furthermore, from massive walls to more intimate setups, the scalability of video walls guarantee that businesses are able to create customised solutions that suit their needs.

Meeting & Collaboration

Meeting room and interactive applications demand detailed and clear image presentation; by adding multitouch capability and 4K UHD resolution, a screen becomes the centerpiece for collaborative working environments with wireless presentation connectivity for instant participation. By partnering with unique software partners for content sharing and advanced collaboration, AG Neovo's all-in-one meeting & collaboration solution, the AG Neovo Meetboard™, offers all the tools needed for presenting, collaborating and sharing ideas right out-of-the-box.

NeoV™ Optical Glass

The most advanced and trusted hard glass protection available.

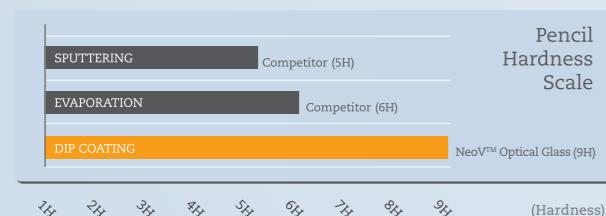

NeoV™ Optical Glass is a specially formulated, hardened optical – with a proprietary multilayer coating – to enhance image quality and protect the screen from any incidental damage incurred in high-volume environments.

Advantages of NeoV™ Optical Glass

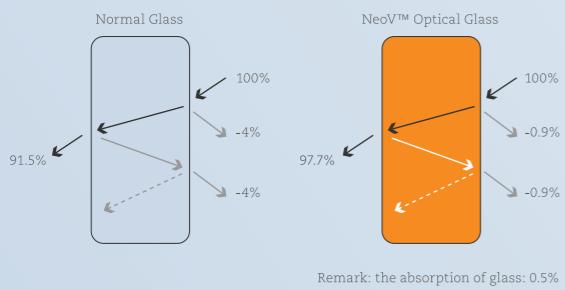

Anti-Scratch Surface

Provides unparalleled resistance to scratches; the coated surface of NeoV™ Optical Glass reaches 9H, the highest grade on the pencil hardness scale.

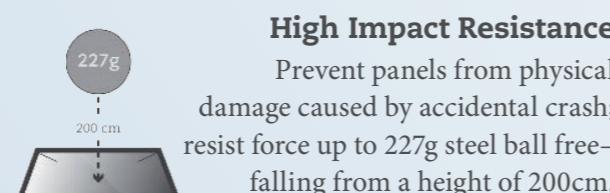

High Transmittance

Provides near perfect panel brightness with a 97.7% transmittance rate, compared to an average 91% transmittance rate for competitors' products.

Anti-Reflection

Effectively decreases glare and reflection; results in 77.3% visual improvement over standard glass and improved viewing comfort.

High Impact Resistance
Prevent panels from physical damage caused by accidental crash; resist force up to 227g steel ball free-falling from a height of 200cm.

Water and Dust Resistance

Protect panels from dust and water; prolong displays life performance in dusty and damp environments.

Maintenance Made Easy

Easily cleaned and disinfected with water, alcohol and other common cleaning solutions due to high resistance towards abrasion, acid and alkali.

Anti-Burn-in™ Technology

Preserve image quality and prevent image retention.

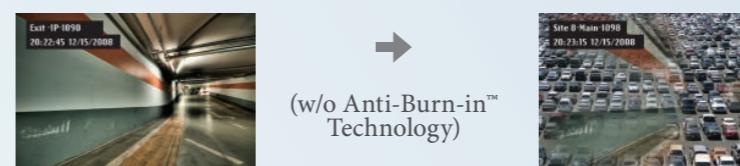

AG Neovo Anti-Burn-in™ technology is designed expressly to protect your investment by preventing costly image burn-in in the display's LCD panel, a common issue in security, surveillance and other environments where static images are displayed long periods of time.

Advantages of Anti-Burn-in™ Technology

Prevents Image Burn-in

Eliminates the possibility of image burn-in through innovative design that can be turned ON or OFF as desired.

What is "Burn-in" effect?

"Burn-in" effect is a phenomenon where images displayed for long periods of time cause the polarisation of the liquid crystal material contained within the TFT LCD panel. Polarisation of the liquid crystal material causes the image to be 'burnt' on the display.

Continuous Surveillance

Ensures uninterrupted display of surveillance video by shifting the image imperceptibly for 15 seconds every 8 hours rather than using a screensaver function.

Uninterrupted
DISPLAY

Investment Protection

Guarantees full life operation of the display by eliminating the possibility of damage caused by image burn-in.

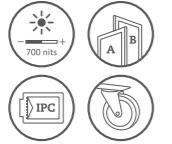

✓ Investment
Guaranteed

Large Format

Different industries require different formats for display selection. Some need wide-screen displays or different display sizes, while some require vertical or slim displays due to the field-site environment limits, still some industries require dual-sided displays for more commercial promotion visibility. Selecting the optimal display among the large format displays has become a crucial task for related professionals.

4K UHD

With the development of the modern technology, requirements for the high resolution displays have become much higher than before. Users keep looking for the displays that come with detailed image quality, particularly for the applications that demand high-resolution image visibility, such as commercial digital signage usage or the security and surveillance applications that require real-time and up-close monitoring of video and graphic information. Providing the reliable 4K/UHD displays has become crucial for product suppliers.

Security & Surveillance

As technology advances and a greater number of surveillance options become available, many security professionals are looking to reap the benefits from new display technology. While factors such as objectives, location, scale, and budget often dictate the type of display solutions adopted, qualities such as reliability, efficiency, and longevity remain mainstays in purchasing decisions for organisations.

Broadcasting

Broadcast environments combine multiple live feeds to produce programming, monitor and control television broadcasts. Constant monitoring of real-time content in this demanding environment makes reliability critical to ensure system long-life and uptime. AG Neovo professional displays are designed and built for non-stop 24/7 operation. The hard-wrought metal casing industrial designs, meticulously selected components coupled with the robust protection of NeoV™ Optical Glass and Anti-Burn-in™ proprietary technologies set AG Neovo displays apart in environments where downtime is not an option.

Healthcare

The displays used in medical scenarios usually require flexibility and easy field-site installation. Besides, these displays need to be EN/IEC 60601-1-certified, ensuring a safety medical environment for both patients and clinical professionals. Meanwhile, image clarity is also a crucial factor for bringing the detailed images and visual presentations for medical survey and accurate diagnosis. Suppliers need to use the advanced technology and provide the reliable displays for increasing medical accuracy and efficiency.

Interactive

Touch panels and displays have recently become a main industry where it requires a direct and interactive contact between users and the displays. It needs highly sensitive and reliable panel for the media to perform the command, and requires advanced technology knowledge to provide the reliability product to increase communication performance and efficiency.

Conference and Meeting

The AG Neovo Meetboard™ 4K UHD Interactive Displays are designed for meeting rooms and interactive applications that require detailed and clear image presentation. With its embedded interactive whiteboard and media streaming software, the Meetboard™ delivers out-of-the-box collaboration and sharing capabilities for modern meeting rooms and boardrooms. Its versatile connectivity options including HDMI, VGA, USB, RS232, and RJ45 provide a complete computing solution for annotation and media playback without the need for a PC.

IFP-Series

Specifications	IFP-8602	IFP-7502	IFP-6502

Professional Desktop / IT

Desktop displays play an essential part in various modern industries. All visual presentations require a desktop display for different applications: Software developers need computers and desktop displays for programming, compiling, and operation, and office workers find desktop displays necessary for their daily work. Selecting a reliable desktop displays have become so basic and crucial for efficiency and convenience.

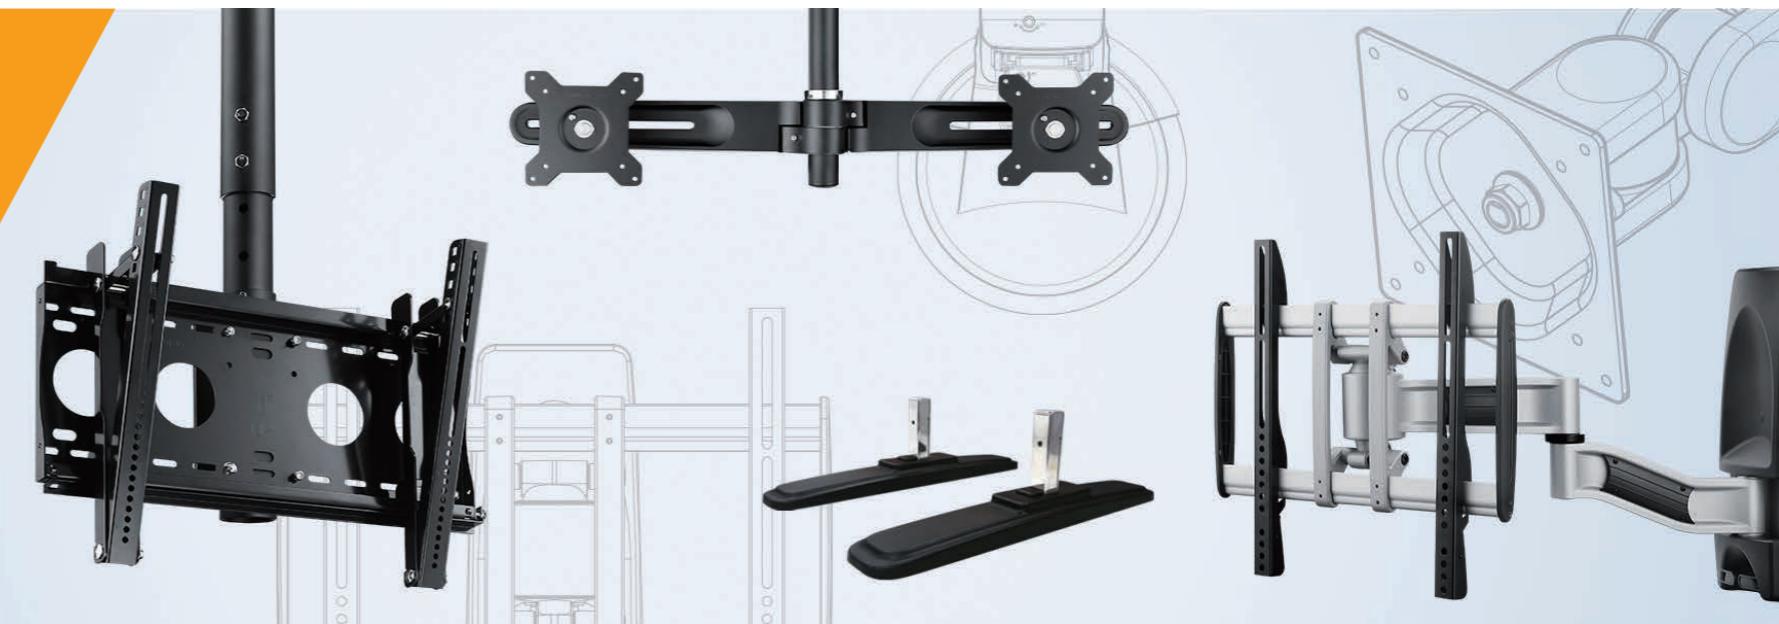

LA-Series

Specifications	LA-24 <small>IPS</small>	LA-22

Display Mounts & Enclosures

Installation methods and display accessories play an important role for display deployments in the application locations. Suppliers need to offer various mounting devices so that users can easily find the suitable solutions that meet their requirements. All related accessories are also needed to be available to increase user's application efficiency and performance.

Ceiling Mounts

	CMP-01+ LMK-01	CMP-01+LMK-02	CMP-01+WMK-03
Mounting	VESA Standard	Max. 725.0 x 450.0 mm	Max. 440 x 330 mm
Loading	Weight Capacity	60.0 kg (132.3 lb) Per side	60.0 kg (132.3 lb) Per side
Adjustment	Swivel	360°	360°
	Height	924.0–1424.0 mm (36.4"–56.1")	924.0–1424.0 mm (36.4"–56.1")
Exterior	Material	Steel	Steel
	Colour	Black	Black
Dimensions	Net (W x H x D)	788.0 x 1,424.0 x 401.0 mm (31.0" x 56.1" x 15.7")	508.0 x 1,424.0 x 338.0 mm (20.0" x 56.1" x 13.3")
	Packing (W x H x D)	CMP-01 Box : 975.0 x 270.0 x 229.0 mm (38.4" x 10.6" x 9.0") LMK-01 Box : 836.0 x 245.0 x 54.0 mm (32.9" x 9.7" x 2.1")	CMP-01 Box : 975.0 x 270.0 x 229.0 mm (38.4" x 10.6" x 9.0") LMK-02 Box : 556.0 x 245.0 x 54.0 mm (21.9" x 9.6" x 2.1")
Weight	Net Weight	11.9 kg (24.9 lb)	10.6 kg (23.4 lb)
	Gross Weight	13.7kg (30.2 lb)	12.1 kg (26.8 lb)
			9.0 kg (19.8 lb)
			10.1 kg (22.3lb)

Desk Mounts

	DMC-01	DMC-02D
Mounting	VESA Standard	75 x 75 mm / 100 x 100 mm
Loading	Weight Capacity	10.0 kg (22.0 lb)
Adjustment (Mounting Bracket)	Rotation	360°
	Swivel	-90° to 90°
Adjustment (Arm)	Tilt	-20° to 90°
	Lift	315.0 mm of Increment (-30° - 65°)
Exterior	Swivel	360°
	Material	Steel, Aluminium alloy, Plastic
Dimensions	Colour	Black & Silver
	Net (W x H x D)	620.0 x 656.0 x 158.0 mm (24.4" x 25.8" x 6.2")
Weight	Packing (W x H x D)	463.0 x 143.0 x 218.0 mm (18.2" x 5.6" x 8.6")
	Net Weight	3.0 kg (6.6 lb)
	Gross Weight	3.9 kg (8.6 lb)
		3.8 kg (8.3 lb)
		4.0 kg (8.9 lb)

Floor Mounts

	FMC-02	
Mounting	Display	32" -65" Displays
	VESA Standard	Max. 400 x 400 mm
Loading	Weight Capacity	30.0 kg (66.1 lb)
Adjustment	Tilt	-
	Lift (Max. centre display)	1826.0 mm (71.9") (max. centre display)
Exterior	Material	Steel and Aluminium
	Colour	Dark grey and Silver
Dimensions	Net (W x H x D)	973.0 x 1896.0 x 641.0 mm (38.3" x 74.6" x 25.2")
	Packing (W x H x D)	680.0 x 1,860.0 x 180.0 mm (26.8" x 73.2" x 7.1")
Weight	Net Weight	21.5 kg (47.4 lb)
	Gross Weight	25.0 kg (55.1 lb)

	ES-02	
Mounting	VESA Standard	75 x 75 mm / 100 x 100 mm
Loading	Weight Capacity	2.0–8.0 kg (4.4–17.6 lb)
Adjustment	Rotation	90° (Landscape/Portrait)
	Swivel	360°
Exterior	Tilt	-5° to 25°
	Lift	-
Dimensions	Material	Plastic
	Colour	Black
Weight	Net (W x H x D)	222.0 x 432.0 x 252.0 mm (8.7" x 17.0" x 9.9")
	Packing (W x H x D)	260.0 x 95.0 x 460.0 mm (10.2" x 3.7" x 18.1")
	Net Weight	3.1 kg (6.8 lb)
	Gross Weight	3.6 kg (7.9 lb)

All specifications are subject to change without prior notice.

Wall Mounts

	LMA-01	WMA-01
Mounting	VESA Standard	Max. 400 x 400 mm
Loading	Weight Capacity	35.0 kg (77.2 lb)
Adjustment	Swivel	-90° to 90°
	Tilt	-15° to 15°
Extension	Max. Distance to Wall	562.0 mm (22.1")
	Min. Distance to Wall	105.0 mm (4.1")
Exterior	Material	Steel, Aluminium alloy, Plastic
	Colour	Black & Silver
Dimensions	Net (W x H x D)	500.0 x 450.0 x 105.0 mm (19.7" x 17.7" x 4.1")
	Packing (W x H x D)	624.0 x 124.0 x 460.0 mm (24.6" x 4.9" x 18.1")
Weight	Net Weight	7.8 kg (17.2 lb)
	Gross Weight	9.3 kg (20.4 lb)
		3.1 kg (6.9 lb)
		3.9 kg (8.5 lb)
