*Illuminazione*  
2021

Gentile cliente,

Nova Italia, azienda nata nel 2001, distribuisce sul territorio nazionale prodotti elettrici e di illuminazione a marchio Nova Line e Neos.

Pur essendo nati da poco più di un ventennio, poggiamo su basi solide, beneficiando di esperienze quarantennali nel settore, arricchite dall'alta professionalità dei nostri collaboratori. Questo team, negli anni ha fatto di noi una realtà consolidata in grado di affrontare il mercato di riferimento in maniera pronta ed efficace.

Un portfolio di oltre tremila clienti acquisiti negli ultimi anni e accordi di partnership con alcuni tra i più importanti protagonisti del settore, fanno di noi un brand riconosciuto in tutto il panorama nazionale. Questo ci ha permesso di essere sempre al passo con i tempi, di fornire innovazione e alti standard qualitativi con particolare attenzione alla ricerca.

La continua evoluzione del settore è ciò che ci spinge quotidianamente in avanti con la consapevolezza di dover essere sempre pronti a soddisfare le necessità dei clienti e dei collaboratori.

Oggi è importante creare sinergie in grado di affrontare le attuali difficoltà del mercato in maniera snella, flessibile e funzionale alla sua costante evoluzione.

Ringrazio con grande stima tutti i collaboratori che con quotidiana dedizione al loro lavoro rappresentano i pilastri dell'azienda.

*Dear Customer,*

*Nova Italia, a company founded in 2001, distributes nationwide electrical and lighting products with Nova Line and Neos brands.*

*Despite being born just over twenty years ago, we stand on solid ground, benefiting from a forty years experience in the field, enriched by the high professionalism of our employees. This team, over the years, has made us a well-established business reality, able to promptly and efficiently face the market.*

*A portfolio of more than three thousand customers acquired in the last years and partnership agreements with some of the most important players in the industry, make us a recognized brand around the national scene. This allowed us to keep abreast of the times, to provide innovation and high quality standards with a special focus on research.*

*The continuous evolution in our field is what pushes us forward every day, knowing that we always have to be prepared to meet the needs of our customers and employees.*

*Today it is important to create synergies able to face the current market difficulties in a streamlined and flexible way, functional to its own constant evolution.*

*Thanks with high esteem to all our employees who are daily engaged in their work and are the cornerstones of the company.*

Mirko Micolucci  
President

## Come aggiungere valore

L'ampia gamma di prodotti, mirata a soddisfare tutte le esigenze del mercato, genera un notevole risparmio di tempo ed economie aziendali.

L'accurata ricerca e selezione di ogni singolo articolo, basata su altissimi standard qualitativi e attenzione alle necessità del cliente, assicura un assortimento di prodotti costantemente aggiornato e con prezzi di vendita sempre allineati agli standard di mercato.

Una linea in continua evoluzione di espositori, modulabili e personalizzabili in funzione delle esigenze dei punti vendita, assicura l'ottimizzazione degli impatti visivi e delle aree espositive, con lay-out razionali che utilizzano al meglio gli spazi.

Il servizio merchandising effettuato dai nostri collaboratori direttamente presso i punti vendita, assicura un notevole risparmio di tempo per il vostro personale. Una gestione degli ordini snella, efficace e con consegne veloci, garantisce la ricezione della merce in tempi rapidi.

La serietà e la cura delle relazioni con i nostri rivenditori, i quali possono contare sul supporto costante dell'azienda e dei suoi rappresentanti, garantiscono proficui rapporti commerciali tra gli interlocutori.

## How to add value

*The wide range of products, aimed to satisfy all the needs of the market, generates considerable savings of time and corporate economies.*

*Accurate research and selection of every single item, based on the highest quality standard and attention to customer needs, ensures a constantly updated assortment of products, with sale prices always aligned with the market standards.*

*A constantly evolving line of merchandising displays, customizable to the needs of the stores, ensures the optimization of the visual impact and exhibition areas, with rational layout and use of space.*

*The merchandising service provided on site directly by our personnel, saves a lot of time for your staff.*

*An effective and streamlined orders management, plus fast deliveries, ensures a fast receipt of the goods.*

*The reliability and the good care of relationships with our retailers, who can count on the constant support of the company and its representatives, ensures profitable business relationships between partners.*

## Obiettivi

Crescere innalzando costantemente gli standard qualitativi aziendali per offrire sempre il miglior prodotto e il miglior servizio possibile.

Essere sempre presenti nel mercato con soluzioni innovative ed al passo coi tempi.

Aumentare la capillarizzazione della rete vendita e la presenza sul territorio nazionale.

Soddisfare le necessità dei nostri partner commerciali con una gestione votata al massimo della professionalità ed un sistema di gestione della logistica snello ed efficace.

Porre particolare attenzione al cliente finale attraverso la scelta di prodotti qualitativamente elevati e di un supporto tecnico altamente qualificato, a diretto contatto con l'utente, in grado di soddisfare qualunque richiesta relativa al prodotto.

Obiettivi lontani?

Crediamo di No. Siamo già sulla buona strada, percorretela insieme a noi.

## Mission

*Growing up constantly, increasing company quality standards to always have the best product possible.*

*Being always on the market with innovative solutions up to date.*

*Extending sales network and presence nationwide .*

*Satisfy our business partners requests with a management devoted to maximum professionalism and a simple and effective logistic system.*

*Focus on the customer, through the selection of high quality products and a high qualified technical support on direct contact with the user to satisfy any kind of request related to the product.*

*Distant goals?*

*We don't think so. We are already on the right way, have it together with us.*

# Sicurezza, qualità e certificazioni prodotti

I Prodotti Nova Line hanno le carte in regola

Tutti i prodotti distribuiti da Nova Italia sono conformi ai requisiti di sicurezza e affidabilità obbligatori previsti dalla legge. Molti di essi possiedono ulteriori marchi di qualità quali l'IMQ, TUV o GS, tutti riconosciuti a livello globale, dimostrando l'impegno dell'azienda per la salvaguardia della salute dei consumatori e l'incremento dell'affidabilità dei prodotti.

## *Safety, quality and product certifications*

*Nova Line products have all the credentials*

*All products distributed by Nova Italia comply with safety and reliability compulsory requirements by law. Lots of them have other quality brands such as IMQ (for electrical equipment), TUV or GS, all worldwide acknowledged, showing company's effort on customers health protection and increase products reliability*

Marchio di conformità alle direttive Europee  
*Conformity Mark to European directives*

Marchio di conformità alle norme IEC  
*Conformity Mark to IEC rules*

Marchio di conformità ai requisiti regolati dal Federal Communications Commission (FCC)/Conformity

di un prodotto e dei materiali da cui è composto  
*Conformity Mark to the requirements on products safety and materials used.*

## Rispettiamo la normativa europea

D.Lgs 25/07/2005 n.151: è vietato smaltire i rifiuti di apparecchiature elettriche ed elettroniche come rifiuti urbani (bidone barrato). Tali rifiuti sono soggetti a raccolta differenziata organizzata dai comuni oppure possono essere consegnati al distributore al dettaglio in caso di acquisto di apparecchiatura dello stesso tipo. Assicurandovi che il prodotto venga smaltito in modo adeguato, eviterete un potenziale impatto negativo, sull'ambiente e sulla salute umana, che potrebbe essere causato da una gestione non conforme dello smaltimento del prodotto. Il riciclaggio del materiale contribuirà alla conservazione delle risorse naturali. Lo smaltimento abusivo di detti rifiuti è sanzionato ai sensi dal D.Lgs 25/07/2005 n.151 Per ricevere ulteriori informazioni più dettagliate Vi invitiamo a contattare l'ufficio preposto nella Vostra città, il servizio per lo smaltimento dei rifiuti domestici o il negozio in cui avete acquistato il prodotto. La Nova Italia, in ottemperanza alla legge vigente riguardo alla direttiva europea RAEE per la raccolta delle apparecchiature elettriche ed elettroniche tra cui lampade fluorescenti integrate, è iscritta al consorzio: Ecorit.

## We respect the european standard

(Legislative Decree 151 of 25/07/2005)

*Legislative Decree 25/07/2005 n.151: it is forbidden to dispose of waste electrical and electronic equipment as municipal waste (crossed bin). These wastes are subject to separate collection organized by municipalities or they can be delivered to the vendor in the event of purchase of the same type of equipment. By ensuring this product is disposed of correctly, you will avoid a potential negative impact on the environment and human health which could otherwise be caused by inappropriate disposal of this product complies. The recycling of materials will help to preserve natural resources. Illegal disposal of this waste is sanctioned under the Decree 25/07/2005 n.151. To receive more detailed information please contact the responsible office in your city, the service for the disposal of household waste or the shop where you purchased the product. Nova Italia in compliance with applicable law regarding the WEEE European Directive for the collection of electrical and electronic equipment including integrated fluorescent lamps is registered in the consortium: Ecorit*

## Le direttive europee ERP/EUP

Le nuove Direttive Europee definiscono un insieme di norme che i produttori di dispositivi elettrici ed elettronici devono rispettare al fine di incrementare l'efficienza energetica e ridurre l'impatto ambientale dei loro prodotti. All'interno di queste normative rientrano non solo i requisiti di progettazione eco compatibili ed i parametri di funzionalità, ma anche requisiti più vincolanti sulle informazioni riportate sulle confezioni. Tutto questo per permettere ai consumatori di confrontare i prodotti di illuminazione in termini di efficienza ed impatto sull'ambiente. L'attuazione delle Direttive Europee ERP/EUP comportano un cambiamento storico nei parametri di riferimento per la scelta di una lampada: non più WATT, ma LUMEN. Questo consentirà un confronto corretto delle diverse tipologie di lampadine disponibili oggi sul mercato.

## ERP/EUP european directives

*The new European Directives define a set of rules that manufacturers of electrical and electronic devices must meet in order to increase energy efficiency and reduce the environmental impact of their products. Within these regulations are included not only the eco - compatible design requirements and functional parameters, but also more stringent requirements on the information given on the packaging . This allows the consumers to compare lighting products in terms of efficiency and environmental impact. Implementation of ERP / EUP European Directives entail a historic change in the benchmarks for choosing a lamp: no more WATT, but LUMEN. This will enable a proper comparison of the different types of light bulbs available on the market today.*

# Certificazione di gestione della qualità ISO 9001

La certificazione di gestione della qualità ISO 9001, standard mondiale per i sistemi di gestione della qualità, garantisce l'elevato livello qualitativo di procedure e processi aziendali volti a rispondere in modo coerente ed esaustivo alle aspettative del cliente attraverso il miglioramento continuo e costante dell'azienda. Tale certificazione rappresenta un importante traguardo con cui l'azienda conferma la propria crescita ed offre un valore aggiunto ai propri clienti.

## *Certified ISO 9001 for quality management system*

*ISO 9001 Certification for quality management system, world standard for quality management systems, guarantees high quality level of business procedures and processes, in order to meet customer expectations in a coherent and comprehensive way, through company ongoing and constant improvement.*

*Requirements and processes conformity is guaranteed by an accredited third Certification Authority, who verify and certify organizational structure's compliance with ISO 9001 requirements. This certification represents an important goal that confirms company's growth and offer an additional value to customers.*

## Laboratorio tecnico

Nova Italia, nell'ottica del miglioramento continuo ha inteso dotarsi di un moderno laboratorio per testare i propri prodotti. Lo spettrofotocolorimetro, conosciuto anche come sfera integratrice, permette di misurare decine di parametri illuminotecnici ed elettrici, relativi a prodotti di illuminazione.

## Technical lab

*Nova Italia, with a view to continuous improvement, equipped itself with a modern laboratory to test its products. The spectrophotometer, also known as integrating sphere, allows measurement of electrotechnical and electrical parameters related to lighting products.*

## 10 Buoni motivi per scegliere Nova Italia

### 10 Good reasons to choose Nova Italia

 Risparmio di tempo ed economie aziendali: un solo referente, unica fattura, unica consegna, unica registrazione contabile.

*Time and business savings: one contact, one invoice, one delivery, one accounting record.*

 Ampia gamma di accessori da un'unica azienda con la possibilità di sviluppare un più interessante volume di affari, ottenendo così migliori condizioni d'acquisto.

*Range of accessories from just one company with the possibility to develop a more interesting turnover, thereby achieving better purchasing conditions.*

 Riordini semplici e automatici tramite nostro personale specializzato di fiducia, con risparmio di tempo per il vostro personale di vendita.

*Simple and automatic orders through our trustfully specialized staff, allowing your sales team to save time.*

 Prezzi di vendita allineati agli standard di mercato.

*Sales prices consistent with market standards.*

 Consegne veloci e, su richiesta, anche in 24 ore.

*Fast deliveries and, on request, also in 24 hours.*

 Assortimento sempre aggiornato.

*Always updated products range.*

 Prodotti di alto standard qualitativo. Rispetto delle normative Italiane ed Europee.

*High quality standard products. Compliance with Italian and European regulations.*

 Allestimento e merchandising presso i punti vendita senza scorte di magazzino.

*Assembling and merchandising directly on retailers without warehouse stocks.*

 Razionalizzazione dell'area espositiva, con un lay-out più razionale che utilizza al meglio gli spazi.

*Rationalization of the exhibition area, with a more rational layout and best use of the space.*

 Ottimizzazione dell'impatto visivo, grazie agli espositori modulabili e personalizzabili in funzione delle esigenze dei punti vendita.

*Visual impact optimization, thanks to modular and customizable displays according the store needs.*

## Simboli *Symbol*

	50.000 h	Durata / Life time		10.000 X	Cicli di accensione / Switching cycles		<b>IK08</b>	Grado di resistenza agli impatti / Resistance rate to impacts
	NO DIMMABLE	Non dimmerabile / Not dimmable		DIMMABLE	Dimmerabile / Dimmable		<b>Ra &gt;80</b>	Indice di resa cromatica / Color rendering index
	INSTANT 100%	Tempo di accensione / Start up time		< 30s	60 LED/m		Tempo necessario al raggiungimento del 60% luminosità / Time needed to reach 60% of lamps brightness	
	BEAM 150°	Fascio luminoso / Beam angle		<b>RGB</b> 16 million colors	Numero LED per metro / Number of LED for meter		Tecnologia multicolore / Multicolor technology	
	Classe di isolamento 1 / Insulation Class 1		Classe di isolamento 2 / Insulation Class 2		Sensore crepuscolare / Light sensor		<b>IP65</b>	Indice di valutazione abbagliamento diretto in un ambiente / Environment direct glare rating
	IP65	Grado di protezione solidi, polveri, liquidi / Protection rate against solids, liquids, dust		<b>UGR &lt;19</b>				

## Tipologia di attacco *Base type*

## Grado di protezione IP / IP rate

Di seguito viene riportata la tabella con l'elenco dei gradi di protezione IP secondo la normativa UNI EN60529. La prima cifra rappresenta l'indice di protezione contro la penetrazione di oggetti solidi e polveri, mentre la seconda cifra indica l'indice di protezione contro la penetrazione di liquidi; questi sono validi a condizioni ambientali standard.

The following table lists the IP protection rates according to the UNI EN60529 directive. The first digit indicates the level of protection against solid objects/particles ingress, while the second digit indicates the level of protection against water, both valid in standard environmental conditions.

Protezione contro penetrazione liquidi Protection against liquid ingress	
2° cifra 2 <sup>nd</sup> digit	Descrizione Description
0	Nessuna protezione. No protection.
1	Protezione da gocce d'acqua provenienti dall'alto. Protected against vertical falls of water drops.
2	Protezione da gocce d'acqua deviate, rispetto alla verticale, al massimo di 15°. Protected against water falls up to 15° of the vertical.
3	Protezione da spruzzi d'acqua con inclinazione massima di 60°. Protected against rain water up to 60° of the vertical.
4	Protezione da spruzzi d'acqua provenienti da ogni direzione. Protected against water projection in all directions.
5	Protezione da getti d'acqua a bassa pressione provenienti da ogni direzione. Protected against water launching in all directions.
6	Protezione da onde marine o da forte getto d'acqua proveniente da qualsiasi direzione. Protected against water launching similar to sea waves hits in all directions.
7	Protezione contro l'immersione per un periodo limitato ed a precise condizioni di pressione. Protected against immersion for a limited period and under specified pressure conditions.
8	Protezione contro l'immersione continua a precise condizioni di pressione. Protected against long effect immersion under specified pressure conditions.

Protezione contro penetrazione oggetti solidi Protection against solid objects ingress	
1° cifra 1 <sup>st</sup> digit	Descrizione Description
0	Nessuna protezione. No protection.
1	Protezione da oggetti solidi di diametro > 50 mm. Protected against solid bodies with diameter > 50 mm.
2	Protezione da oggetti solidi di diametro > 12,5 mm. Protected against solid bodies with diameter > 12,5 mm.
3	Protezione da oggetti solidi di diametro > 2,5 mm. Protected against solid bodies with diameter > 2,5 mm.
4	Protezione da oggetti solidi di diametro > di 1 mm. Protected against solid bodies with diameter > 1 mm.
5	Protezioni da polveri (senza formazione di depositi dannosi) Protected against dust (Without damaging sediments).
6	Protezione totale da polveri. Totally protected against dust.

## Indice IK / IK rate

Lo standard Europeo EN 62262 - l'equivalente dello standard internazionale IEC 62262:2002 – parla della certificazione dei prodotti con un indice IK. Questa è una classificazione numerica internazionale per il livello di protezione assicurato dalla custodia di prodotti elettrici dagli impatti meccanici esterni. La classificazione tramite i codici IK è stata originariamente definita nello standard Europeo BS EN 50102:1995 e poi aggiornata nel 1998 con un emendamento. Quando è diventato uno standard mondiale nel 2002, anche l'UE l'ha reimmatricolato sotto il numero EN 62262.

The European standard EN 62262 — the equivalent of international standard IEC 62262:2002 — relates to IK rated products certification. This is an international numeric classification for the degrees of protection against external mechanical impacts provided by the enclosures of electrical equipment. The IK Code was originally defined in European Standard BS EN 50102:1995, amended in 1999. Following its adoption as an international standard in 2002, the EU renumbered it into EN 62262.

IK00	Nessuna protezione No protection	
IK01	Resistente agli impatti con una energia fino a 0,150 J Resistant to impacts up to 0.150 J of energy	
IK02	Resistente agli impatti con una energia fino a 0,200 J Resistant to impacts up to 0.200 J of energy	
IK03	Resistente agli impatti con una energia fino a 0,350 J Resistant to impacts up to 0.350 J of energy	
IK04	Resistente agli impatti con una energia fino a 0,500 J Resistant to impacts up to 0.500 J of energy	
IK05	Resistente agli impatti con una energia fino a 0,700 J Resistant to impacts up to 0.700 J of energy	
IK06	Resistente agli impatti con una energia fino a 1,00 J Resistant to impacts up to 1.00 J of energy	
IK07	Resistente agli impatti con una energia fino a 2,00 J Resistant to impacts up to 2.00 J of energy	
IK08	Resistente agli impatti con una energia fino a 5,00 J Resistant to impacts up to 5.00 J of energy	
IK09	Resistente agli impatti con una energia fino a 10,00 J Resistant to impacts up to 10.00 J of energy	
IK10	Resistente agli impatti con una energia fino a 20,00 J Resistant to impacts up to 20.00 J of energy

# LED Street Light

## Panoramica / Overview

L'elegante design dei moduli led, combinati ai potenti chip LUMILEDS® LUXEON 5050 e all'affidabile driver Mean Well® della serie HLG, garantiscono alle lampade stradali NOVALine un alto rendimento luminoso ed una maggiore durata, offrendo una garanzia di ben 7 anni.

The elegant design of its LED modules, combined with highly efficient LUMILEDS® LUXEON 5050 luminous sources and highly reliable Mean Well® driver series HLG, give the NOVALine LED street lights a high luminous efficiency and better service life, providing 7 years warranty on the luminaire.

### LED LUMINOUS SOURCE

Fonte luminosa con un grado di efficienza superiore a 185lm/W.  
Greater than 185lm/W high efficacy illumination grade LED light source.

### LED DRIVER

Driver Meanwell serie HLG di alta gamma, ottima stabilità, performance e durata.  
High-end Mean Well HLG Series LED driver, optimal stability, performance and lifespan.

### LED MODULE

Design ricercato con efficace dissipazione termica e grado di protezione IP67.  
Exquisite design with powerful thermal dissipation and IP67 waterproof performance.

Bordi smussati a cilindro, per evitare rischi di tagli.  
Cylindrical edge design, avoid cut risk.

Utilizzo di viteria in acciaio inossidabile su tutto il corpo della lampada.  
Overall stainless steel screws adopted.

### LUMINAIRE DESIGN

Dissipatore dal design studiato per agevolare la ventilazione ed evitare tagli durante il maneggiamento.

Reasonable heat sink design, not only keep ventilation but also avoid laceration.

Gli spazi tra i moduli non solo accelerano a dissipazione del calore ma risolvono anche il problema dell'accumulo di polveri.  
Gaps between each module Increase the heat dissipation speed and solve the problem of dust deposition.

## Installazione flessibile / Flexible installation

Innovativo design da palo con possibilità di inclinazione 0-15° rispetto alla classica installazione sia verticale che orizzontale.

Innovative pole fitter design not only achieve the horizontal and vertical installation features, but also has 0-15° adjustable function for each installation direction.

## Dettagli tecnici / Detailed features

Lenti dal design professionale adatte alle diverse applicazioni.  
Professional lens design, suitable for various applications.

Il corpo della lampada è fissato con 2 viti M8x16 in acciaio inossidabile rinforzato.  
Luminaire body is fixed by two M8x16 fortified stainless steel screws.

Comparto cavetteria dal design razionale, solido e durevole.  
Rational clamshell design for wiring compartment, sturdy and durable.

Utilizzo di viteria in acciaio inossidabile su tutto il corpo illuminante, senza rischio di corrosione.  
Use stainless steel screws for the whole luminaire, no corrosion worries.

Utilizzo dei connettori tedeschi Wago per il cablaggio interno, sicuri, comodi e rapidi.  
German Wago connectors for output wiring, safe. Convenient & fast.

Innovativi connettori per un collegamento pulito ed efficiente.  
Innovative pluggable connector. Clean & efficient.

UL connessione standard.  
UL standard connection.

Interamente fatto in alluminio con un ampia area dissipante.  
Full aluminium made, wide heat dissipation area.

# LED Solar Street Lighting System

## PROFESSIONAL APPLICATION

Compatible con  
Compatible with

50W

100W

Un set completo di fari stradali ad energia solare include il corpo illuminante con palo, i pannelli solari, le batterie, il controller, i cavi, etc...

A complete set of Solar street lights includes Lamp with pole, Batteries, Solar Panels, Controller, Cable and etc.

### Servizio personalizzato

Poiché ogni luogo ha le sue specifiche condizioni di illuminazione e piovosità, e i clienti hanno richieste differenti in termini di ore operative, contattateci per ottenere delle configurazioni più esatte e per tutte le altre domande.

### Customized service

Each city has its own sunshine condition and rainy days, and customers have different working hours requests. So if you want to know more about exact configuration, please contact us for other questions.

# LED Intelligent Street Lighting System

## PROFESSIONAL APPLICATION

NOVA fornisce una soluzione globale per il sistema di illuminazione stradale.

Tale sistema è composto da un software, un controller concentratore, un controller terminale.

Il controller concentratore è installato nella cabina di distribuzione, il controller terminale è installato sul corpo illuminante. Comunicano tramite rete wireless GPRS/CDMA/WCDMA o via cavo & monitor center, e via ZIGBEE/PLC.

Il controller concentratore può controllare ciascun controller terminale tramite il software di gestione, il quale può gestire l'on/off di ogni lampada e la sua dimmerabilità, per risparmiare energia. Monitora anche la funzionalità del corpo illuminante per rilevare eventuali malfunzionamenti.

Il controller concentratore può incorporare il DO (Digital Output) per il controllo di un circuito di illuminazione stradale, collegandosi ad altri dispositivi per collezionare altre informazioni quali luminosità, temperatura ...e monitorare lo stato corrente con il software di gestione.

NOVA provides a total solution for intelligence street lighting system.

NOVA street light intelligence system is made up by software, concentrator, terminal controller. The concentrator controller is installed in the distribution cabinet, the terminal controller is installed in the lighting terminal. It proceeds with communication via GPRS/CDMA/WCDMA wireless network or cable network & monitor center and proceeds with communication via ZIGBEE/PLC.

Concentrator controller can control each terminal controller via receiving, executing, forwarding PC management software, which can control each lamp's switching on/off or dimming, then save electric energy. It can also monitor the lamps' electric energy to achieve failure lamps function. Concentrator controller can built-in DO to achieve street light loop control, it can connect with other equipment to collect local illumination, temperature and other information, feedback to PC management software and achieve to monitor the current information.

Contattare l'ufficio commerciale per i tempi di consegna  
Please contact the sales office for delivery times.

Non solo flood light, il nuovo Vision è adatto a differenti utilizzi e applicazioni solo cambiano la modalità di installazione.

Not just flood light, The New Vision is available for different purpose and application by changing the installation way.

#### Montaggio a sospensione Pendant mounting

La flood light Vision ha 4 punti di ancoraggio simmetrici, per la sospensione con cavetti o catene, permettendo così un montaggio ed una sistemazione rapida rispetto ad una lampada high bay tradizionale, La Vision Flood light possiede un flusso luminoso superiore e possibilità di scegliere angoli di fascio luminoso diversi, anche asimmetrici.

New Vision features four symmetrical points for suspension from a cord or optionally from a chain, and can therefore be fixed and adjusted quickly. As a supplementary for standard high bay light, the new vision gives more options for different beam angles and higher output.

#### Montaggio tradizionale su staffa Regular bracket installation

Fissata su un palo alto, a soffitto, a parete o a terra la Vision Flood permette una rotazione a 180°. Per progetti in ambienti molto umidi e corrosivi, come ad esempio le aree portuali, si consiglia di utilizzare la staffa in versione potenziata acciaio inossidabile 304 per garantire la lunga durata.

Fixed at high mast, ceiling, wall and ground, the luminaire is 180° rotatable. For high humidity corrosion environment, such like sea port project, 304 stainless steel bracket upgrade is highly recommended to guarantee the long service life delivery.

#### La gestione termica ottimale Ultimate thermal management

#### Lenti esclusive brevettate Unique patent lens

Il sistema lenti in policarbonato è disegnato e prodotto esclusivamente per queste Flood lights. La materia prima di alta qualità importata dal Giappone garantisce un alto flusso luminoso. Sono disponibili diversi tipi di angoli da stretti ad ampi per incontrare le esigenze richieste dalle differenti applicazioni. I LED sono protetti perfettamente dal blocco lenti anche in climi rigidi grazie al design IP55

Complex PC lens is special designed and produced for New Vision Flood Light. Professional Japanese-imported raw material guarantees the high luminous flux. Various beam angles are available from narrow to wide to meet the requirements of different applications. LEDs are under perfect protection of complex lens in harsh environment thanks to the IP55 design.

#### Telaio in estruso di alluminio + Sistema di raffreddamento.

Aluminum extrusion Frame + Cooling System  
L'estruzione di alluminio si è rivelato migliore nella dissipazione del calore rispetto sia all'alluminio pressofuso che alle alette in alluminio. Con un design brevettato, il telaio in estrusione di alluminio dona un aspetto sofisticato e aiuta il processo di raffreddamento, aggiungendo area dissipante alla struttura per una efficienza superiore.

Compared with Die casting and aluminium Fin, the extrusion is much better in heat dissipation. With Patent design, the extrusion frame gives sophisticated look, and takes part in the cooling work. Extra cooling area more protection and extra-high efficiency.

#### Circolazione dell'aria Air Flow

La corretta circolazione dell'aria è un elemento fondamentale in un prodotto Led sviluppato allo scopo di raggiungere alte performances. Lo spazio tra i moduli riduce la resistenza alla circolazione dell'aria e crea un canale che permette di far fuoriuscire il calore dei Led, aumentando la sicurezza della lampada montata in posti alti. Air flow is an absolute element in all lighting products under the Performance-oriented develop philosophy. The gap between modules creates the channel for air flow to take away the heat from LEDs. On the other hand, it effectively reduces the air resistance and improves the safety of luminaire mounted at high position.

La circolazione dell'aria e la struttura ventilata prevengono l'accumulo di strati di polvere a miglioramento della gestione termica  
The circulation of air and a ventilated structure prevent accumulation of a dust layer improving thermal management.

### Modalità di funzionamento Working modes

**Al crepuscolo (<30 lux) la lampada si accende al 20% della luminosità e si spegne dopo 5 ore.**

Automatically turns on at the dusk (<30lux) and remains 20% bright, up to 5 hours after which it turns off.

**Al crepuscolo (<30 lux), la lampada si accende per 10 secondi alla piena luminosità quando rileva un movimento per poi ridursi al 3% della luminosità. La luce posteriore è sempre attiva.**

At dusk (<30 lux), the lamp turns on to full brightness when detects a movement, then turns to 3% brightness after 20 seconds. Back light is always on.

**Al crepuscolo (<30 lux), la lampada si accende per 30 secondi alla piena luminosità quando rileva un movimento per poi spegnersi.**

At dusk(<30 lux), the lamp turns on to full brightness when detects a movement, then turns OFF after 30 seconds.

## Modalità di funzionamento / Working modes

## Modalità sensore / Sensor mode:

A: Quando la capacità della batteria è superiore al 30%, e viene rilevato un movimento nel raggio ≤6 metri, il dispositivo si accende automaticamente alla massima luminosità. Dopo 20 secondi di assenza di movimento, il dispositivo passa alla luminosità debole. When battery capacity above 30%, automatically turns on to full brightness when motion is detected in the range ≤6m, then dim to weak brightness in 20 seconds of no motion.

## B: Quando la capacità della batteria è inferiore al 30%, e viene rilevato un movimento nel raggio ≤6 metri, il dispositivo si accende automaticamente alla massima luminosità. Dopo 20 secondi di assenza di movimento, il dispositivo si spegne.

When battery capacity below 30%, automatically turns on to full brightness when motion is detected in the range ≤6m, then turns off in 20 seconds of no motion.

## Modalità ad illuminazione costante / Constant lighting mode:

Premendo il pulsante per 3 secondi, la lampada si trasforma in modalità ad illuminazione costante; entrambi i sensori di movimento e luminosità verranno disattivati. Il dispositivo continuerà a mantenere l'illuminazione finché la capacità della batteria non si riduce a zero, per tornare poi alla modalità sensore.

Press the button for 3 seconds and shining one time, lamp turns to constant lighting mode, both motion and light sensors disabled. Permanently keep lighting until the battery capacity reduces to zero switching back to sensor mode.

## Modalità di funzionamento / Working modes

In base al collegamento con il pannello solare o dispositivo per la ricarica, il faro riconoscerà automaticamente se funziona in modalità A, modalità B o powerbank. According to the connection of the lamp body with solar panel, the lamp will automatically recognize the Constant Lighting Mode, Sensor Mode or Power Bank function.

**Modalità A: Luce sempre accesa (Faro NON collegato al pannello solare)**  
**Mode A: Constant Lighting Mode (Lamp NOT connected with solar panel)**

In questa modalità, il controllo con sensore PIR e fotocellula non funzionerà.  
Under this work mode, the PIR sensor & Photo-cell control will not work.

**A1:** Premere ⏪ una volta - il faro si accende al 30% di luminosità.  
Mode A1: Press ⏪ 1st time, it turns on to 30% constant brightness.

**A2:** Premere ⏪ due volte - il faro si accende al 100% di luminosità.  
Mode A2: Press ⏪ 2nd time, it turns on to 100% constant brightness.

**A3:** Premere ⏪ tre volte - il faro si spegne.  
Mode A3: Press ⏪ 3rd time, it turns off.

**Modalità B: Con sensore (Faro collegato al pannello solare)**  
**Mode B: Sensor Mode (Lamp connected with solar panel)**

In questa modalità, la lampada si accenderà automaticamente di notte e si spegnerà durante il giorno.  
Under this work mode, the lamp will automatically light on at night, and light off at day time.

**B1:** Premere ⏪ una volta - il faro si accende automaticamente al 100% quando viene rilevato un movimento entro 6 metri e torna al 5% se non rileva altri movimenti per 20 secondi.  
Mode B1: Press ⏪ 1st time, automatically turns on to 100% brightness when motion is detected in range 6m and then turns to 5% brightness in 20 seconds of no motion.

**B2:** Premere ⏪ due volte – il faro si accende automaticamente al 100% per 5 ore. Dopo 5 ore o quando la batteria è al di sotto del 30%, torna nella modalità B1.  
Mode B2: Press ⏪ 2nd time, automatically turns on and remain 100% brightness (1100lm) for 5hours. After 5hrs or when battery capacity is less than 30%, it turns to Mode B1.

**B3:** Premere ⏪ 3 volte – il faro si spegne.  
Mode B3: Press ⏪ 3rd time, it turns off.

**Funzione aggiuntiva: Powerbank**  
Additional Power Bank Function

### LED LUMINOUS SOURCE

Fonte luminosa con un grado di efficienza superiore a 150lm/W  
Greater than 150lm/W high efficacy, illumination grade LED light source.

Le High bay Lights Nova utilizzano i chip Nichia con un alta performance luminosa, stabilità e durata.

LED HighBay lights are using Nichia, luminous source, providing excellent lumen output, long lasting stability and splendid sight.

Le High bay Lights Nova utilizzano Led driver Philips di alta qualità, programmabili e con controllo 1-10V integrato, protezione da picchi di 4KV.

LED HighBay lights are using high-end programmable Philips LED driver with long lifespan, integrate dimming function and 4KV surge protection.

### LED DRIVER

Driver installabile in doppia modalità, senza uso di attrezzi, salva spazio

Driver down packing, save packing space, no need tools directly install drivers equipped with a safety rope protection

### HEAT RADIATOR

Design dissipante originale per performance stabili

Unique thermal design, stable product performance.

Cablaggio con accessori waterproof.

Waterproof connector wiring, installation is convenient

## Specifiche / Specifications

## Facile Riparazione / Replaceable

Il driver interno si collega tramite morsetti, per una rapida sostituzione in caso di assistenza post vendita.

Internal drive connects with terminals, easy for taking on and off. Better after-sales service.

## LED efficiente

Unique thermal solution

I led Sanan SMD2835, 0,5W, sviluppano poco calore e in modo uniforme,(<65°C) per una migliore dissipazione e quindi un più basso decadimento del flusso luminoso.

Unique heat dissipation, surface temperature of chips less than 65°C. Low light decay, long life.

Epistar SMD2835, 0,5W/chip, low heat and evenly spread, better heat dissipation.

## Struttura dissipante brevettata

Patent Design Heating dissipation structure

Dissipazione del calore eccellente, forgiatura a freddo, alluminio puro 1070, conduttività termica fino a 230w/m\*K

Excellent heat dissipation Cold-forging, little thermal resistance, 1070 pure aluminum, thermal conductivity as high 230w/m\*K

Montaggio  
Installation

La lampada va montata obbligatoriamente con cavetti in acciaio (in dotazione) per aumentarne la sicurezza.

With safety rope included, ensuring security

## Ventola a levitazione magnetica

Magnetic levitation motor fan

Ventola ad alta velocità, assenza di rumore, 50.000 ore di durata.

Fan, high speed no noise 50.000 hours lifetime.

50 m

### SMD5050

### Montaggio / Mounting

I nastri led 220V si fissano sulle superfici prescelte tramite le clip in pvc.

The 220V led strips can be mounted on the chosen surfaces using PVC clips

### Collegamento / Installation

I nastri Led Novaline 220V si possono collegare direttamente alla rete elettrica 220V tramite lo specifico cavo alimentatore/raddrizzatore che supporta fino a 50 m di nastro.

Il nastro led 220V è sezionabile ogni 1 m, e può essere giunto ad altre sezioni di nastro tramite gli appositi connettori IP65 per creare un'illuminazione su misura per ogni ambiente, assicurandosi di proteggere adeguatamente i punti di giunzione per mantenere l'impermeabilità.

The Novaline 220V Led strips can be directly connected to main power through the power rectifier cable provided, that can bear up to 50m led strip.

The 220V led strip is cuttable every 1 m, and can be linked to other pieces of strips by using the IP65 connectors to create a customized lighting solution for every environment, being sure to correctly seal the connection point to keep the IP rate.

# LED Strip 12V

## Consumer Line

**Assenza rischi fotobiologici**

No photobiological risk

EN 62471

**Collegamento singolo** Single installation

**Collegamento con accessorio** Accessory installation

**Collegamento multiplo** Multiple installation

### Montaggio / Mounting

I nastri led Novaline sono provvisti di biadesivo per una facile applicazione su qualsiasi superficie liscia. In alternativa è possibile il fissaggio con le clips (non in dotazione).

The Novaline led strip have double-sided 3M tape in the back for easy installation on smooth surfaces. It's also possible to fix the strip using plastic clips (not provided).

### Collegamento / Installation

I nastri led Novaline sono dotati di uno speciale connettore per l'innesco rapido all'alimentatore (non incluso).

È possibile anche collegare più strisce in parallelo fino a raggiungere la lunghezza desiderata utilizzando gli accessori Novaline, ma in questo caso accertarsi che anche l'alimentatore o il variatore di intensità, se installati, siano della potenza adeguata.

The Novaline led strip are equipped with a special plug to allow a fast connection to the driver.

It's possible to link more strips into parallel connection up to the desired length using the Novaline accessories, but being careful that the driver or the dimmer used are well sized.

### ATTENZIONE

IL NASTRO LED VA INSTALLATO SU SUPPORTI METALLICI O SUPERFICI CHE NE PERMETTANO UN ADEGUATO RAFFREDDAMENTO, AL FINE DI GARANTIRNE IL CORRETTO FUNZIONAMENTO.

## LED Tube

### Alta affidabilità / Highly reliable

L'innovativo package led, l'elettronica, i materiali più affidabili, THD ed EMI severamente controllati garantiscono buone performance in ambiente operativo tra i -20°C e i 45°C e in altre condizioni di applicazione complesse.

New innovation led package inside, together with most reliable electronic and other materials to ensure good performance during -20° to 45°C ambient temperature. Strictly controlled THD and EMI, ensuring good performance under complex application conditions.

### Alta sicurezza / Highly safe

Circuito di protezione interno, in conformità con i requisiti IEC garantiscono la sicurezza dell'utilizzatore anche in caso di utilizzo improprio. Superato il test High-Pot 4KV a garanzia dell'isolamento e della sicurezza. Superato il test di picco 1KV, per la sicurezza dai danni causati dalle fluttuazioni della tensione in entrata o dai fulmini.

Protection circuit inside ensuring people's safety in case of misuse, complying with IEC safety requirements. Pass 4 KV high-pot test, insulation & safety guaranteed. Pass 1KV surge test, avoiding the damage caused by input voltage fluctuation and lightning strike.

#### Alimentatore Driver

Strettamente conforme ai requisiti di sicurezza IEC e EMC. Sicurezza potenziata dal circuito di protezione integrato NCC Capacitance.

Strictly follow IEC safety and EMC requirements enhanced safety with built-in protection circuit.

#### Ottiche Optics

Angolo di emissione ampio di 320° senza aree scure. La verniciatura ecologica all'interno del tubo rende la luce uniforme senza bagliori.

320 degree wide beam angle, no dark areas. Environmentally paint on the inside glass makes light uniform, no glare.

#### Struttura Structure

Gli attacchi sono fissati con colla Dow Corning 7091 che non si allenta né scolla, assicurando durata e sicurezza.

Dow corning 7091 glue used for sticking the plugs, never loose and fall off, ensure durability and safety.

#### Termica Thermal

La piastra in alluminio è direttamente fissata sul vetro ad alta condutività termica, per una migliore dissipazione del calore. Assicura 50000 ore di durata, tre volte in più del tradizionale tubo fluorescente.

Aluminum plate is directly affixed to high thermal conductivity glass for better heat dissipation. Ensure over 50000h lifetime.

#### Affidabilità Reliability

24 ore di test prima del confezionamento  
24 hours aging before packing

#### Sicurezza Safety

In vetro e policarbonato, nessun rischio per la sicurezza. Conforme a norma UL 94v-0 testa ritardante di fiamma. Conforme al 100% con gli standard IEC per i tubi T8. With PC and glass, No security risks. Flame retardant caps comply with UL 94v-0. 100% comply with IEC standard on T8.

#### LED

Innovativi chip led, conformi ai report LM80.

Latest innovation LED chip, comply with LM80 report.

## Installazione tubi T8 / Tube T8 installation

### A: Retrofit con alimentatore ferro-magnetico (reattore). Cambiare solo lampade e starter

Traditional fluorescent tube fitting with magnetic ballast. Replace both tube and starter

### B: Non occorre lo starter

No need of the starter

## Installazione tubi T5 / T5 tube installation

### A - Retrofit tubo tradizionale fluorescente con ballast elettronico;

Traditional fluorescent tube fitting with electronic ballast;

#### 1. Rimuovere il tubo fluorescente

Take traditional fluorescent down;

#### 2. Collegare la Linea 4 e la Linea 1 all'alimentazione, senza collegamento al ballast elettronico;

Connect line4 and line1 to the AC, should not connect to the electronic ballast;

#### 3. Collegare la Linea 2 e la Linea 3 direttamente;

Connect line 2 and line3 directly- short circuit.

### B - Nuova installazione / new installation

#### 1. Entrambe le estremità si collegano all'alimentatore;

Double input connect to the AC directly;

## Applicazioni / Application

Hotel, ristoranti, bar, caffè, grandi negozi, supermercati, abitazioni, sale congressi, scuole ecc...

Hotel, restaurant, bar, cafe, shopping mall, supermarket, house, office, meeting room, school and so on.

EMERGENCY LIGHTS

# EMERGENCY Light

## Premium Line

### Modalità di funzionamento:

**SA** sempre acceso

+ **SE** solo emergenza

Operation mode: Maintained

+ Non-Maintained

**Durata in emergenza: 3 ore**

Emergency duration: 3 hours

**Colore bianco,**

copertura trasparente

White colour, clear cover

**Vita Batteria – fino a 4 anni**

Battery lifetime – up to 4 years

**Assenza rischi fotobiologici**

No photobiological risk

CE

Lampada d'emergenza con doppia funzione **SE** (Solo Emergenza) o **SA** (Sempre Accesa). Nella funzione **SE** la lampada si accenderà solo in caso di mancanza della rete elettrica; Nella funzione **SA** la lampada rimane sempre accesa e continua ad illuminare anche in caso di mancanza rete, continuando ad indicare i percorsi o le uscite di emergenza tramite i pittogrammi adesivi PTG3 (kit venduto separatamente).

La lampada può essere installata a parete o, in alternativa, a incasso tramite il Kit SC352 (venduto separatamente).

Double function emergency light: **N** (Non Maintained) or **M** (Maintained).

**N** Funcion: Lamp will be turned on in case of power failure only.

**M** function: Lamp is always turned on even in case of power failure, and will keep showing routes and emergency exits through PTG3 stickers (separately sold).

Emergency lamp can be wall installed or recessed. Recessed option need KITSC352 (separately sold).

# CONDIZIONI GENERALI DI VENDITA

ORDINE: Valore minimo fatturabile € 200,00

IMBALLO STANDARD: Confezionato in cartoni.

TRASPORTO: Franco per spedizioni superiori a € 700,00; se inferiore, addebitato in fattura.

## CONDIZIONI DI VENDITA

Il committente accetta tutte le condizioni di vendita sotto indicate all'atto in cui conferisce l'ordine. I prezzi indicati nel nostro listino non sono impegnativi e possono essere aggiornati ai costi di produzione o ai cambi valutari vigenti.

## ORDINI

Gli ordini, anche se confermati, si intendono accettati con facoltà di annullamento totale o parziale in rapporto al regolare conferimento di materie prime o, comunque a causa di forza maggiore. Tutta la merce viene venduta franco nostro deposito e sono pertanto a carico del committente tutte le spese di spedizione ed imballo.

## ESPOSITORI

Tutti gli espositori inviati restano di proprietà della "NOVA ITALIA srl" e sono ceduti solo ed esclusivamente in comodato d'uso.

## RISCHI

La merce viaggia a totale rischio e pericolo del committente anche se spedita in Porto Franco. Non si assume alcuna responsabilità per furti, avarie o manomissioni che si potessero verificare durante il trasporto o per ritardi di consegna provocati da corrieri.

## CONSEGNE

I termini di consegna non sono da intendersi impegnativi. Eventuali ritardi non danno diritto ad indennizzi o risarcimenti di danni diretti o indiretti.

## RECLAMI

Non si accettano resi di merce senza nostra preventiva autorizzazione. Gli eventuali reclami devono essere fatti entro otto giorni dal ricevimento della merce. I resi di merce autorizzati devono essere inviati esclusivamente in Porto Franco. Non verranno prese in considerazione richieste di reso di materiale fuori catalogo. Le indicazioni di misure, disegni e colori sono date solo a titolo indicativo. Senza preavviso possono essere apportate modifiche che abbiano lo scopo di migliorare la qualità e le funzionalità dei prodotti.

## PAGAMENTI

I pagamenti devono essere effettuati al domicilio della ditta "NOVA ITALIA srl" alle scadenze stabiliti e per l'importo pattuito. In caso di ritardo nei pagamenti concordati si darà luogo all'immediata decorrenza degli interessi bancari maggiorati degli interessi legali: il mancato pagamento a qualsiasi titolo autorizza la "NOVA ITALIA srl" a sospendere ulteriori forniture.

## RISERVA DI PROPRIETÀ

La proprietà della merce rimarrà alla "NOVA ITALIA srl" e non trapasserà al committente sino a che non sia effettuato l'intero pagamento del prezzo, intendendosi la vendita sotto la condizione dell'effettuato totale del pagamento. Pertanto, in caso di mancato pagamento, la nostra società avrà il diritto di rivendicare la merce consegnata anche in caso di fallimento.

## CONTROVERSIE

Per qualsiasi controversia si intende competente il Foro di Lanciano. I contratti, anche se stipulati con acquirenti stranieri e per materiali forniti all'estero, sono regolati dalla Legislazione Italiana.
