# WE HELP YOU CONNECT

2021

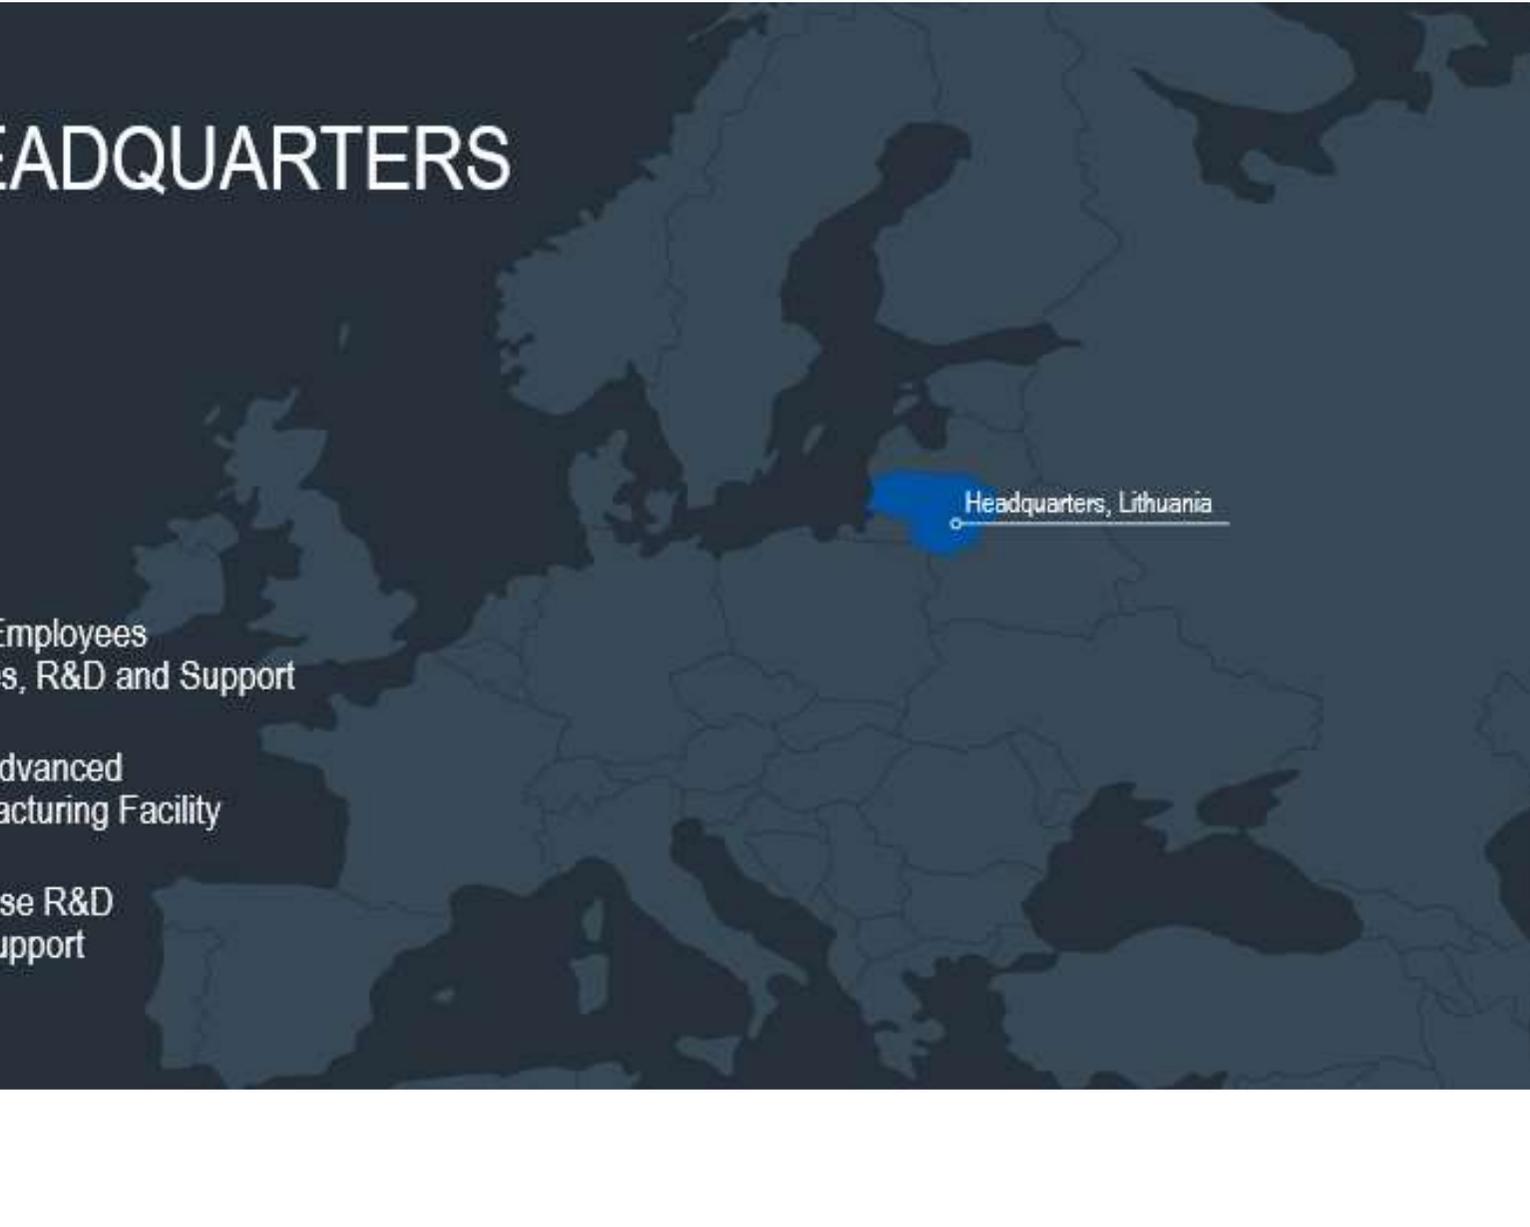

A photograph of a modern, multi-story office building at dusk. The building features a mix of white and dark grey facades with large glass windows. The Teltonika logo is illuminated in blue on the upper right corner of the building. The sky is a deep blue with some clouds, and the ground in front is a paved parking lot with white lines. The overall mood is professional and modern.

Application sectors –ENERGY  
Electronic Vehicle chargers

Inspired by industry leaders, innovated for value and performance.

---

# Teltonika RUT series

Application sectors – Digital Signage

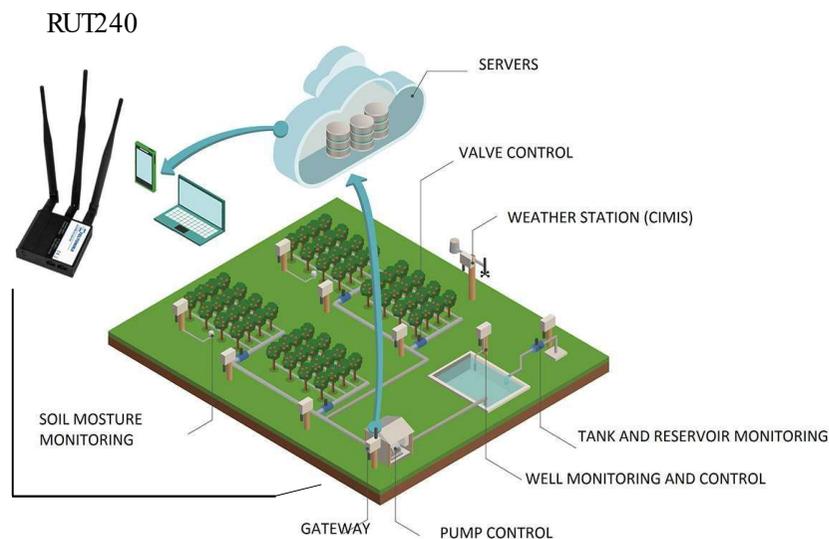

4G/LTE enabled routers are used as:

- Primary connectivity option where cabling is expensive OR installations are temporary
- Backup connectivity, where Digital Signage screens are used with Payment terminals for order processing (eg. Mcdonalds)

# Teltonika RUT series

Application sectors – Smart irrigation systems

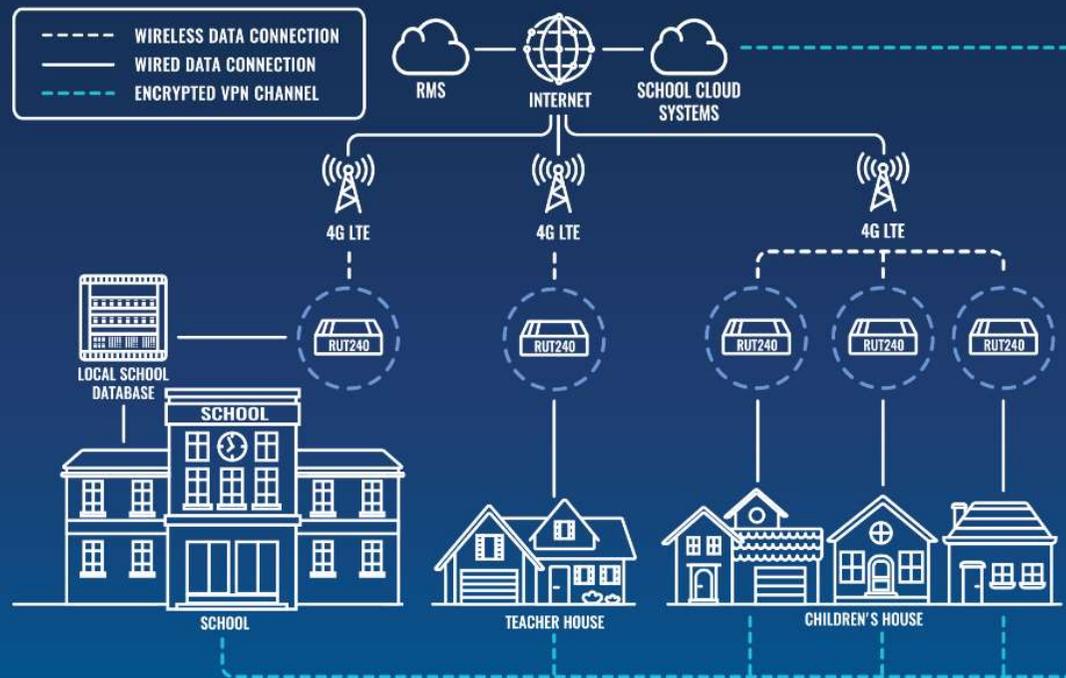

Smart irrigation systems contains a challenge of distant location and low availability for connectivity options.

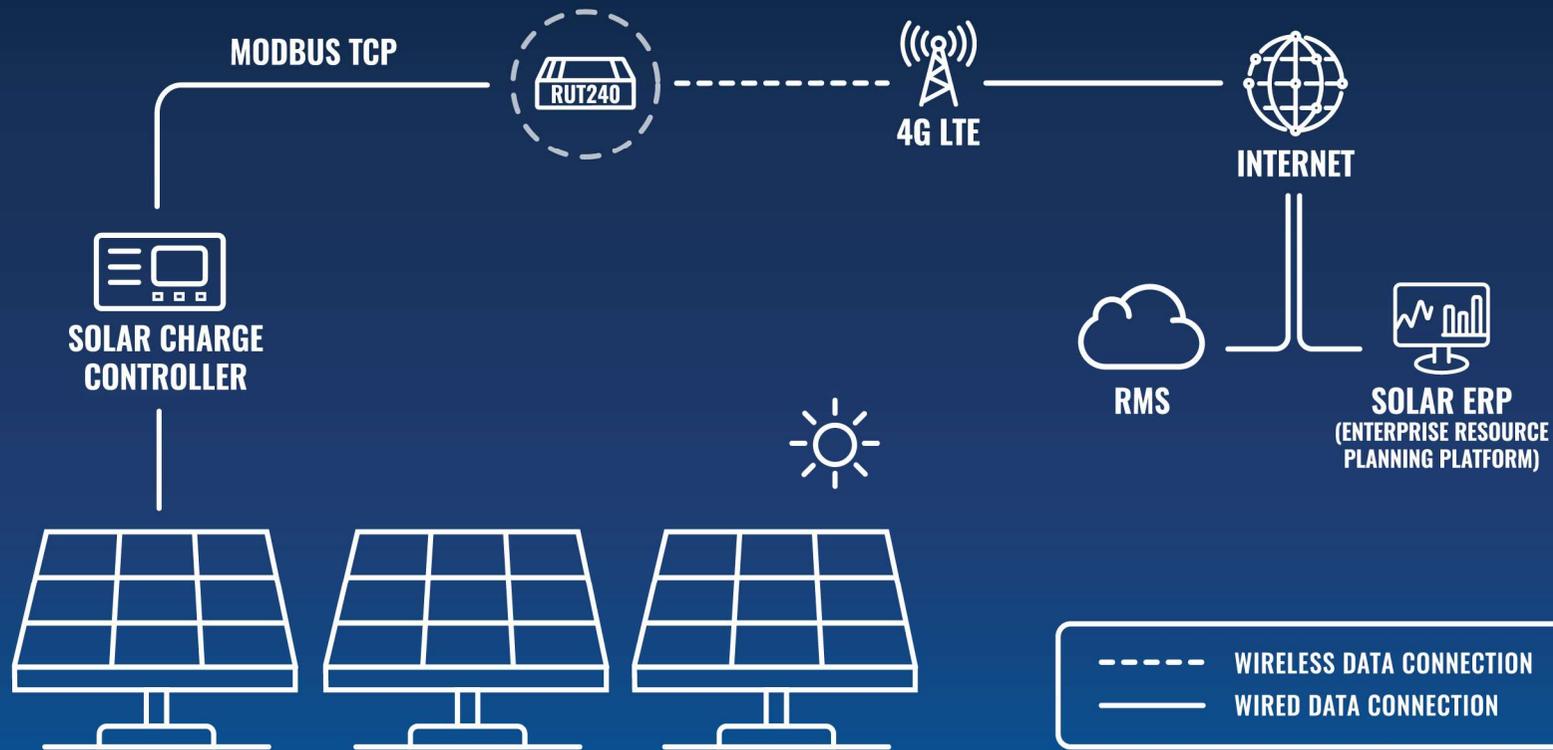

Although local connectivity can be solved through RFor LP networks, cellular is still best option to connect installation to cloud platform

Teltonika RUT2XX series is chosen in most smart irrigation cases due to sufficient functionality, small dimensions and overall value.

# ROUTERS: RUT9 SERIES

RUT900

RUT950

RUT955

# Teltonika RUT series

Application sectors– Public Transport

Modern Public transport needs to have:

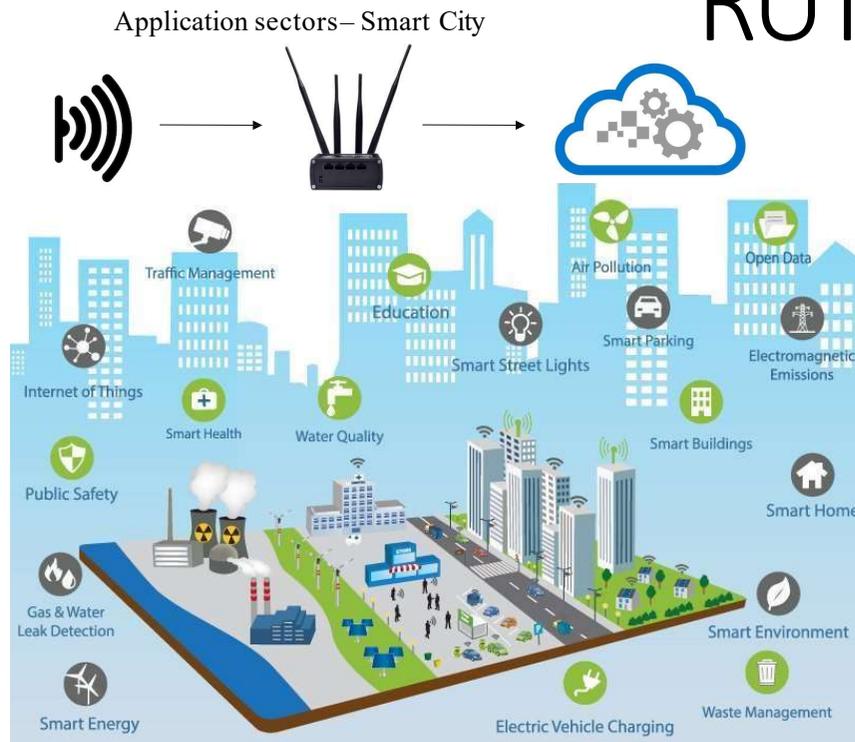

- Customer WiFi hotspot
- Ticketing connection
- CCTVfeed to HQ
- Digital Signage

Our customer can provide all of this functionality with single RUT955 (other models are used also)

Key value areas:

- Integrated Hotspot functionality
- Multiple connectivity interfaces
- GNSS+RMS allows easy monitoring of the whole fleet

# Teltonika RUT series

Basic Smart City framework:

Sensor → communication device → cloud platform

Key areas:

- Lighting control
- Energy efficiency
- City Safety / Security
- Incident detection
- Air/Noise/Pollution
- Parking
- Traffic Systems
- Public WiFi
- Water Quality
- Waste Management

# Teltonika RUT series

Application sectors -POS

Even 5 min of downtime in retail environment can out-value the initial cost of installation.

Teltonika routers have been tested and approved by:

Cellular router is needed for a backup connection.

Can be configured to seamlessly switch once the main internet source is down (fiber/WiFi)

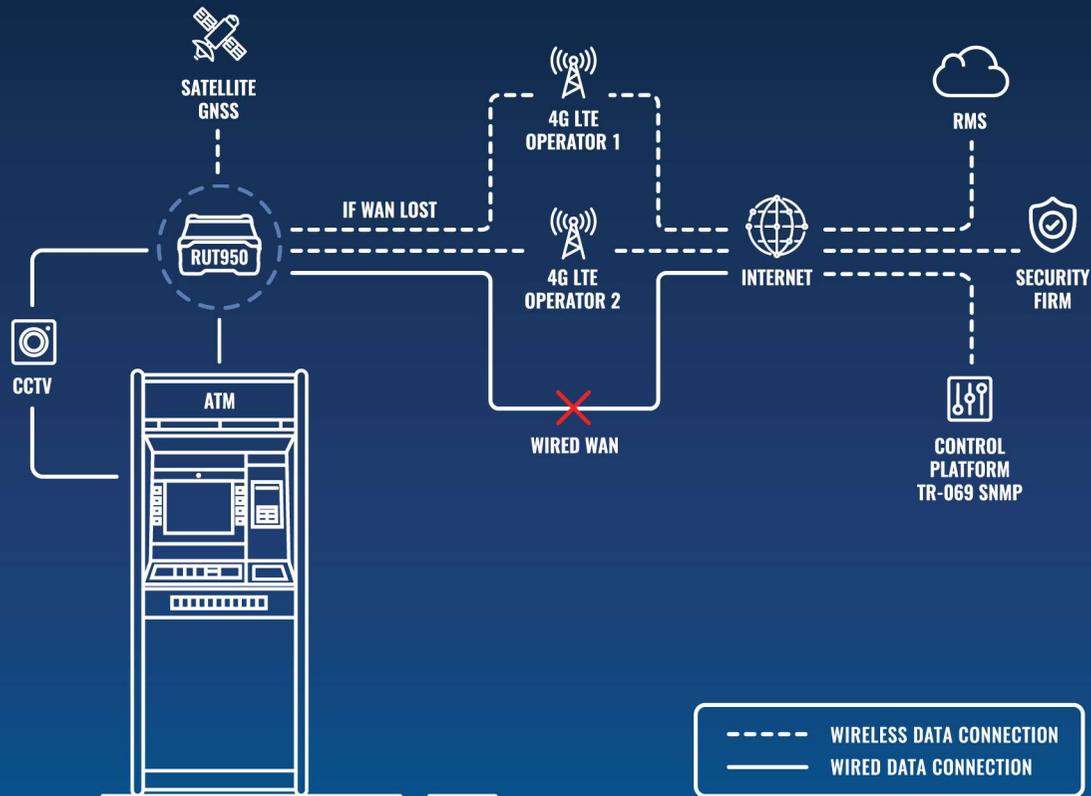

Additional benefits from: 2\*SIM failover, OpenVPN

Inspired by industry leaders, innovated for value and performance.

## Teltonika RUT series

Application sectors – Vehicleconnectivity  
Toyota case

Actual business case with TeltonikaRUT850:

- Car WiFi hotspot + infotainment system connectivity.
- Pilot of 5000 psc was agreed of RUT850 after successful tests.
- Teltonika came on top in terms of value against Sierra, Peplink and Huawei.

## Teltonika RUT series

Application sectors– Recreational vehicle connectivity

Recreational vehicle connectivity can be easily achieved with Teltonika RUT850:

- Plug and Play consumer level installation
- Ignition detection + sleep mode
- GPS (GNSS)
- Up to 80 WiFi clients simultaneously

# TSW100

## INDUSTRIAL UNMANAGED POE+ SWITCH

TSW100 – 5-port, unmanaged full Gigabit Ethernet switch supporting Power-over-Ethernet (802.3af and 802.3at standards).

### POE

4 x PoE ports with 802.3af and 802.3at support

### POWER BUDGET

Total power budget at PSE up to 120 W

### DURABLE

Rugged aluminium housing

### ETHERNET

5 x Gigabit Ethernet with speeds up to 1000 Mbps

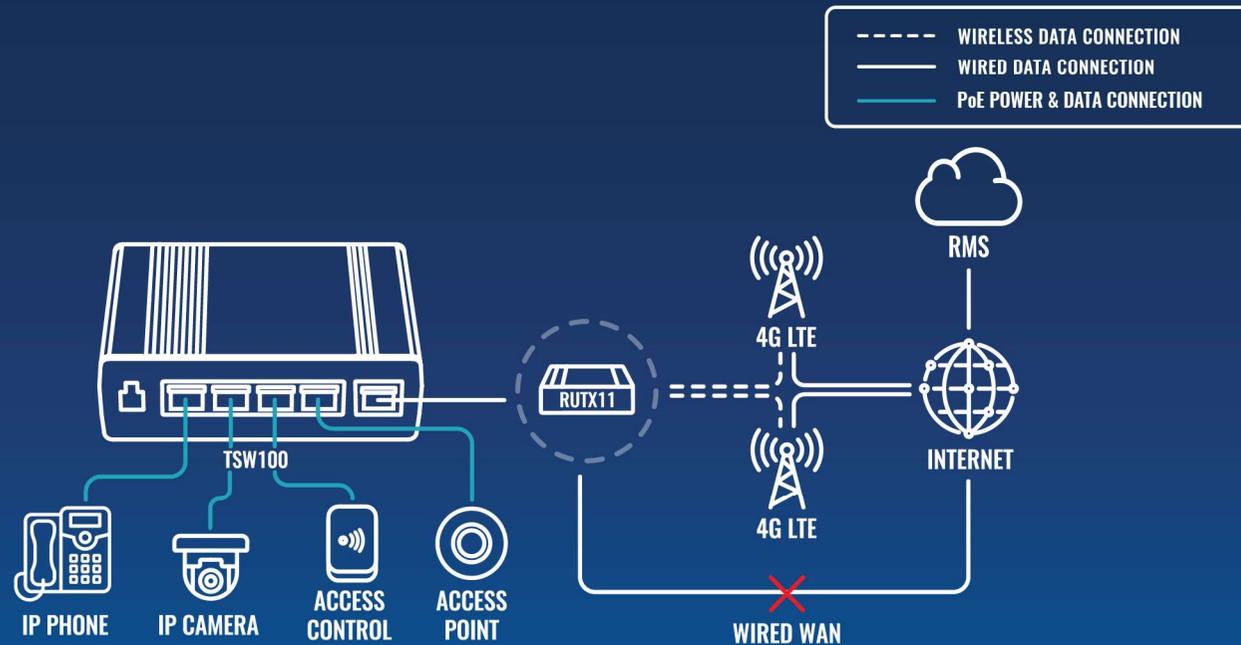

### MOUNTING

DIN rail and surface mounting options

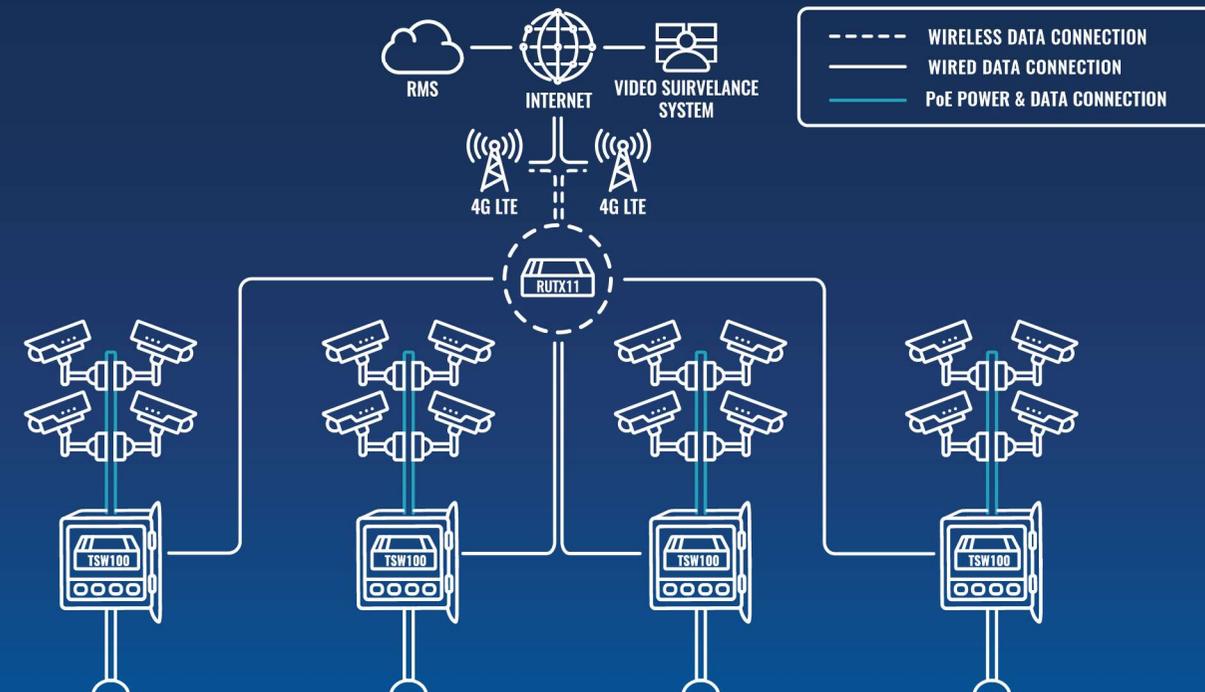

### PLUG-N-PLAY

No additional configuration needed

# PoE TECHNOLOGY SIMPLIFYING OFFICE NETWORK INTEGRATIONS

# RELIABLE MULTIPLE CAMERA CONNECTIVITY

# RUTX12

## DUAL LTE CAT 6 INDUSTRIAL CELLULAR ROUTER

Powerful Dual LTE Cat 6 router is designed for mission critical applications. Equipped with two LTE modems for dual simultaneous connections allowing instant seamless LTE service switching and load balancing features make this device irreplaceable in applications where losing connection is not an option.

### DUAL LTE

Cellular speeds up to 600Mbps with dual simultaneous LTE CAT 6 connections

### GNSS

Global Navigation Satellite System for location services and time synchronization

### DUAL SIM

Instant failover switching

### LOAD BALANCING

Allows to use multiple WAN sources to increase throughput

### WIFI & BT

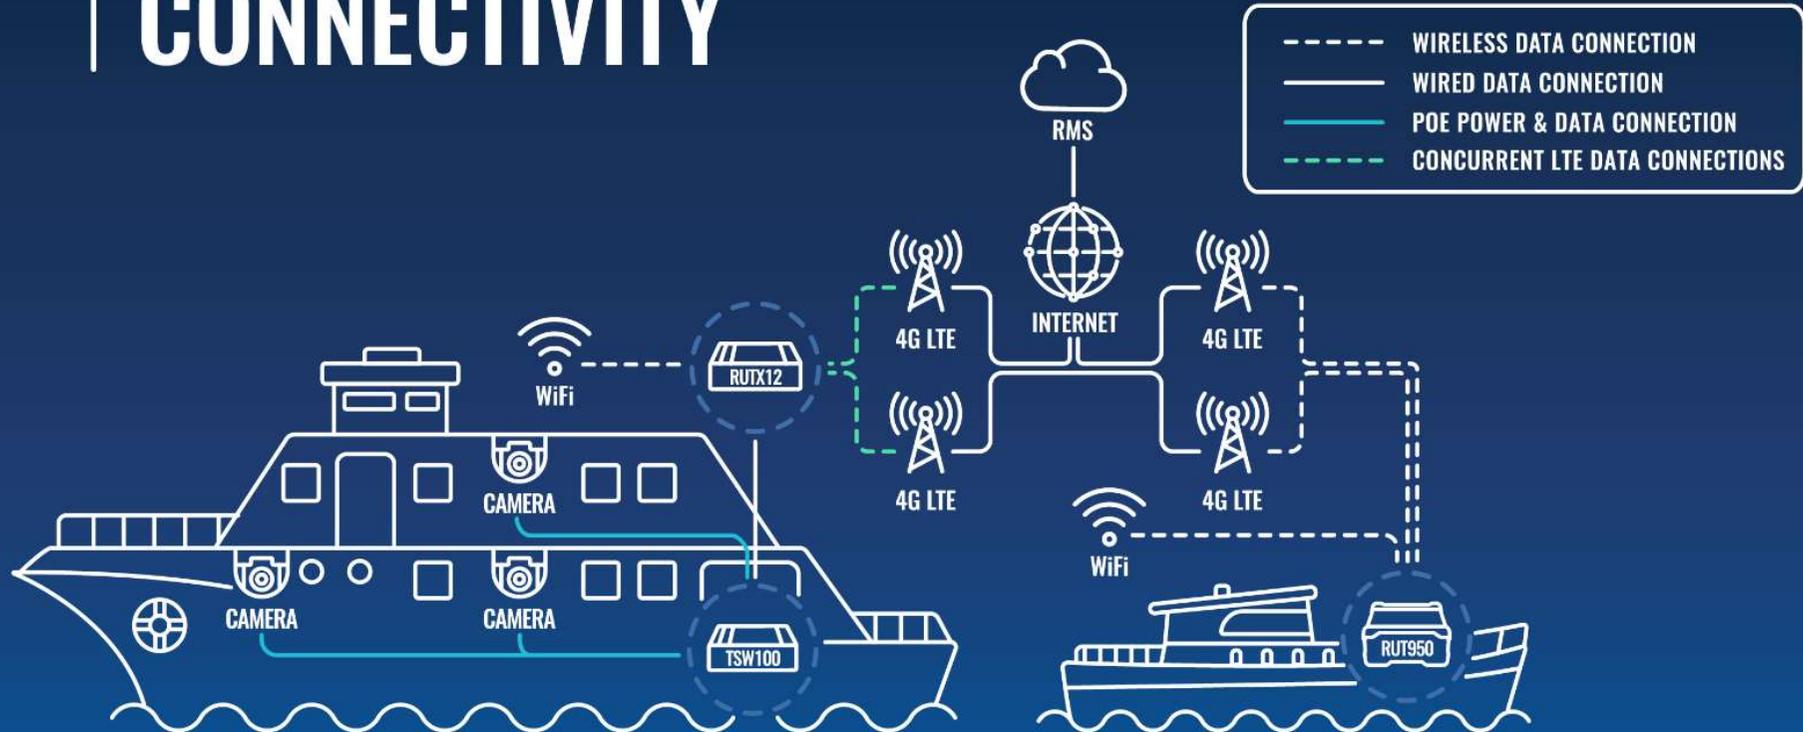

Wave-2 802.11ac Dual Band WIFI and Bluetooth LE

### RMS

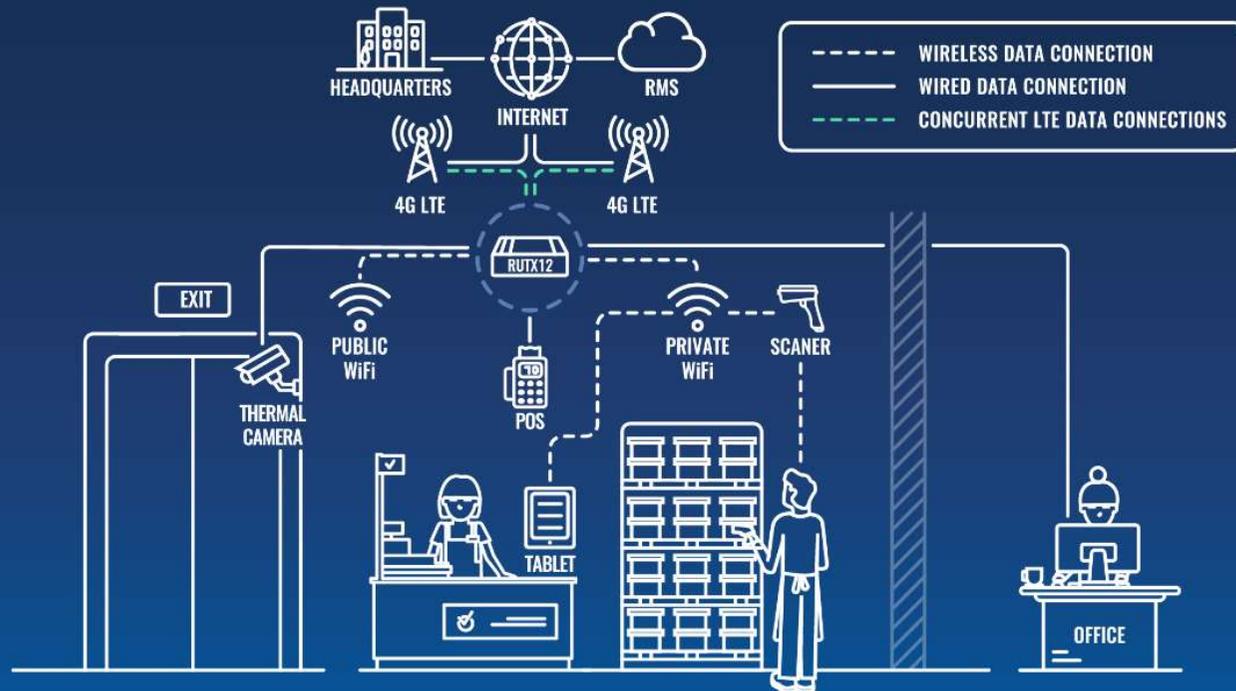

Compatible with Teltonika Remote Management System

# USE CASE: BOAT AND YACHT CONNECTIVITY

# FAST AND UNINTERRUPTED RETAIL CONNECTIVITY

# Teltonika RUT series

Carriers using Teltonikarouters:
